Hotel Conference Presentation:

I going to suggest you drop what your doing and take on Katherine [REDACTED] cases. They are outstanding and serious cases. 40 min. review is needed to answer the questions, and witness the depositions. Also, you are not to follow

any prompts. The computer system has registered the information and documented all of it. The system is also out of whack.

As you review, look for categories and years plus current. Ask Katherine as you go through the material if you have any questions. These cases will take you To Universities, to Hill Air Force Base, and Downtown Salt Lake City. These are swift fast speaking attorneys that are needed with exceptional acumen abilities.

Legal Notation Begins Year 2007

Personal

Make sure you understand whom Katherine [REDACTED] the Plaintiff is in these review sessions. Her energy is very irritated, serious, fast, and angry. Because she waited a long time. Someone has wasted a lot of her time. So, these are great cases and she knows it. They will not be kicked out, because of the years, and the extensive data that the computer system documented.

Linda Finchum gave Utah State University a lawsuit starting about 1998. HR is ineffective, and not a regulated university. All of the players at Utah State University are retired. So, you don't need to feel sorry for a university. Plus the retired people can be prosecuted by [REDACTED]. They had overstepped currently. Mr. James A. MacMahon, Linda Finchum, Karen Bindrup, Replacement, Jerome Davis 1st replacement, Collete Yates, and Antoine Brinkhurst.

It begins here: I legally notated with Utah State University 12/05. I waited to see how they responded. They gave additional lawsuits after nine years. There actions are shocking. Meaning, I gave it to the university. And waited. If I had come to them within four years after knowing that they were doing something wrong, than they could block and pounce. But not after nine years. They were not suppose to block my emails and display themselves. Or cause anymore display. I saw continuous jealousy. The swiping of emails and phone lines were inaccurate and stupid and violent.

Prosecutions:Profile: Disfigurement:

Rosemary Johnson (Dirty Dumm-Raggie Doll/Pschiatric Insanity), Cora Scarlet (Retardation/Crippling), Susanna Chaffo "what do you want me to do next" (Retardation), JoAnn Milner (Twisted-Mop-Head Responses-demented skull), "here take a look at her." Doug Frabrizio (twirls his eyes), Lisa Sewell (Pschiatric Violence), "she is grade 'E', Outsiders; Jim MacMahon (Jealous Ibino disease), Karen Bindrup, Linda Finchum (psychiatric demented skull), Collete Yates, Jerome Davis, Replacement, Antoine Brinkhurst.

1/06 to present. Fraud Attorneys witnessed alot on my records and did nothing. They made comments from Fraud language. They could have gone after theft, smaller cases, and the consumer report swipes. They did not. Government was contacted by Webmaster. They are non-academic.

They were not authorities to remark near my background check. The computer system does not want people echatting into Network Interface. The computer system recorded everything and is out of whack. I don't need additional lawsuits after nine years. View Finder - Hard Copy.

The computer system recorded thousands of hours of taping in my favor.

Blurbs and Display Announcement occurred in several states by Rosemary Johnson and JoAnn Milner who will be prosecuted for attempting to hurt [REDACTED] and misuse of technology.

In addition, another Display and infringement case occurred. And a additional display occurred which means that no one policed the records in Network Services. And thousand of servers were hit by a bouncing prompt.

Comments: Network USA - 'Ridiculous Pompus'

Rosemary Johnson, raggie doll, works at the Salt Lake Community College and she displayed me since 1985 on a national network system. She has a military radar machine on her computer. She is sloppy, jealous, and violent and copied information onto some other computers. Involved in the daily disfigurement are Cora Scarlet, JoAnn Milner, Susanna Chaffos, Linda Finchum. She took high-resolution photos of down and out (Redwood Road and State Street), and merged their systems onto mine and activated bacteria and disease. She posted daily. She flickered her hands onto the machine and keyboard. She gets up everymoring and swipes the military machine.

Issues are: rot on the nail beds, discoloration, skeleton disease, cropped short, three mechanisms, shrinkage, taupe leather skin, narrowed teeth (paid orthodontic \$6,000), buttocks and legs huge and different reworked, ham strings tighten, height shortened, rounded shoulders, redesigned figure from someone else's photos. Studied voice pattern alteration. Voice movements- steady. So, Rosemary Johnson has stupidity.

Corporate Litigation:

I am seeking corporate legal representation. I didn't invite newcomers or new speeches. I didn't invite people to my legal moment. I didn't invite Utah State University to watch and obstruct, or contribute to my crime scene (Linda Finchum and James MacMahon both will be prosecuted). Or to make remarks like "keep everything the same, we conducted an experiment."

I think all of these individuals including Don Cooley (retired computer science who witness all the swipes) were derelicts (pre-existing issues). They had committed an illegal act. There are prosecutions that the computer system

recorded. More than 84 prosecutions around Angelos' cases.

Little America Hotel is 1 block from the Courts for outstaters. Katherine will get the forms to prosecute. I need help to manage my cases. I am ready now. I can get an out of state attorney plus an instate attorney. Or, I can handle this instate.

Thank you.
